Dr. Small Declares That Eastern Section of City Has Been Ignored in Making of Appropriations.

Old grads, young grads and grads-to-be of the Eastern, Western and Central High

Association, with their friends and guests, adjourned to the drill hall, where the addresses of the evening were made. Clifford V. Church, president of the organization, outlined the purpose of the association and spoke of the results that might be obtained by the co-operation of all the members of the association. He pointed out that the graduates of the Eastern High School were the first among the high schools to organize an alumni association, and that the association should be the most advanced in the city. About five hundred graduates gathered at the Central High School. Emory Wilson, principal of the school, in his address, dwelt on the record made by DISCARDED ARMY RIFLES the Centralites this year in all branches of school activities. He told the oldtimers of the record made by the students of the school this year, and predicted the same record for the future. Speaking of the campaign for a new building, Mr. Wilson asked for the full support of the Alumni Association, saying that it was apparent that a new "We are cramped for space; we have
